Updates: OCTOBER

HAPPY HALLOWEEN

Halloween is a lot of fun for those taking part, just be aware that the house is **your** responsibility... e.g. broken eggs and flour will need to be cleaned off by Tues 2nd Nov! Any damage that occurs e.g. broken windows, must be repaired/ replaced - you can organise it or we can on your behalf, either way the bill is yours!

-  You will need:
- washed rubber glove
 - elastic band
 - cocktail/ punch* of your choice
- *don't use fizzy mixers as they will explode in the freezer!

FROZEN HAND RECIPE

1. Pour punch/cocktail of your choice into the rubber glove and fill, leaving space to loosely tie the top with a rubber band.
2. Place in freezer until frozen.
3. Remove from freezer, run warm water over the glove to thaw slightly, and carefully pull away the glove.
4. Place frozen hand in your bowl of punch... and wall-ah!

What do you call two witches living together?
Broom-mates!

Where does a ghost go on a Saturday night?
Anywhere he can **boo-gie!**

Are you Green?

To make sure the house is toasty when you wake up and of an evening set the timer on your heating.

An average household heat setting is 18-20°C and if you get chilly only turn up the thermostat 1 or 2° at a time. Try to dry clothes outside...it might be cold but they will dry quicker because of the wind...this will prevent the build up of moisture in the air inside the house.

REMEMBER REMEMBER...

As the cold months begin, mice and rats will want to share your warm house, especially if you leave rubbish lying about. Please reduce the risk by remembering to put your bin out for collection - all information can be found on the Canterbury Council Website.

Excess fat/oil from food?

Wait until it cools and then put it in your bin... putting it down your sink could cause a blockage.
