CHRISTMAS SPECIAL

With Christmas just around the corner it's likely you will be going home for many days, if not weeks. **Please remember:**

1. The last one to leave is to make sure the heating is switched down to 10° on the thermostat. **PLEASE DO NOT TURN YOUR HEATING OFF.**
2. Throw any food out that will go off in your fridges and cupboards. The last thing you want to come back to in the New Year is rotting food and pet mice!
3. Please shut all your **windows!** Just in case you forget, our maintenance guys will check them over the Christmas period...

What is Santa's favourite pizza? One that's deep pan, crisp and even.

Why was Santa's little helper feeling depressed? He had low self-esteem.

- 1l red wine
 - 100g sugar

4. Warm on a low heat, stirring gently until the sugar has dissolved (DO NOT BOIL!)
5. Strain into a warmed bowl and serve.

What happens over the holidays?
We have a **maintenance programme** throughout the holidays...if you have been notified about plans to paint in your house or bedroom please make sure you put all your belongings away and cover anything like T.V.s, computers, keyboards...

Need something fixed?
Let us know, and we can get it sorted whilst you are away.

Merry Christmas from all at SLA
